

FINANCIAL HEALTH CHECK

Are you worried about the financial health of your business?

Well, you're not alone. Financial pressures are a major cause of stress and concern for business owners and their families. However, that's where I can help.

I will review your current financial position and objectives. I'll provide specialised advice on how to implement improvement strategies and actions so that you can reduce your stress and achieve your financial goals.

A financial check up is for you if you're wanting to:

- Increase your profits and grow your business
- Reduce your debt level and financial obligations
- Ensure you have enough money for retirement
- Have a better understanding of where your money is going

How much does it cost?

A Financial check-up is \$2000 + GST

How do I book a financial check up?

What's Included?

- I Review last 3 year's financial statements and most recent YTD figures
- I Review your business and personal financial assets and liabilities
- Identify any financial gaps and provide detailed report of recommendations on how to fill them
- 12 months cashflow Forecast to project your future financial position
- 2 x 60 minute strategy sessions to go through all of the above and create actionable solutions

TAKE THE FIRST STEP TOWARDS SUSTAINABLE GROWTH: A FINANCIAL HEALTH CHECK.

As a business owner, you understand the importance of making informed decisions and optimising your financial strategies to drive sustainable growth. This check serves as a crucial starting point in assessing your current financial landscape, identifying areas of improvement, and charting a path towards long-term success.

UNCOVERING YOUR BUSINESS'S FULL GROWTH POTENTIAL

Every business has untapped growth potential. However, without a comprehensive understanding of your financial health and performance, it can be challenging to unleash this potential.

This financial health check objectively evaluates your financial position, offering insights into key areas such as cash flow management, profitability, budgeting, and financial forecasting. The check sets the foundation for sustainable growth and financial success by uncovering areas that require attention and improvement.
